

TECHNICAL SPECIFICATION

Miniature circuit breakers (MCB) C60DC SERIES

Functions:

- for lowering constant current voltaic arc and use of the breaker at constant current consumer protection
- protection of the electrical circuits from overload or short circuits of the outer circuit at alternating current and constant current power supply circuits
- it can be used as a device for commutation and control of electrical circuits
- in combination with auxiliary devices it allows remote control, commutation or indication of the protected circuit
- for mounting in industrial buildings
- allows protection of consumers generating short circuit current up to 6000A at alternating current power supply
